Attached are pages from the KIJs, facing pages with suggestions for changes, my notes on these pages reflecting decisions reached at the USIB, and a list of points to specific NIOs. The DCI and USIB agreed that the NIOs would have editorial license for incorporating these specific changes but that the substance of the suggestions would be included. Please review these KIJs, revise as necessary as soon as possible, and return the new versions to the front office.
